

MERRILL DATASITEONE
FOR GENERAL COUNSEL

Dealmaking with control and risk mitigation.

In today's fast-paced capital markets, a general counsel faces a mounting challenge: Mitigate complex risk without impeding efficiency or slowing a deal down. As you balance this with litigation, regulatory reporting, public policy and other concerns, you need a transformative deal-making and document management platform that ensures data security and deal integrity. Powered by Merrill Corporation's expertise, DatasiteOne helps drive deals to faster, more successful outcomes.

- + Use a single tool to manage the full deal lifecycle – from initial planning to accepting bids, completing due diligence, negotiating deal documents, and managing contracts and other matters.
- + Connect team members from anywhere in the world with secure, seamless anytime-anywhere access.
- + Maintain control and mitigate risk with tools built to ensure the integrity of all documentation and communications.
- + Provide selective access and permissions that enable users to view, download or edit documentation and track user activity with robust audit trails and reporting capabilities.

Merrill DatasiteOne is an end-to-end technology solution that supports every phase of a deal, so you can ensure ongoing growth and success. We put the power of our expertise in your hands.

The Merrill DatasiteOne Difference

Not all virtual data rooms are created equal – they aren't all built to handle the high demands of sensitive corporate transactions while delivering premium features and real-world usability. With our decades of expertise, we've seen what works – and what doesn't.

- + **Easiest to Use:** Work more efficiently with Merrill DatasiteOne's expanded collaboration capabilities, reduced clicks on key activities, drag and drop functionality and an improved upload process that makes it easy to quickly replicate structures and authorizations.
- + **Critical Control:** Sophisticated audit tools ensure visibility into document chain of ownership while retaining comprehensive control over and insight into what information is downloaded, printed, forwarded or copied.
- + **Advanced Q&A:** Managing multiple subject matter experts, amassing input and editing multiple spreadsheets is now simple, scalable and precise. We help you make the right information available, avoid duplicate questions and avoid conflicting answers.
- + **Superior Search:** DatasiteOne is built with sophisticated search technologies that swiftly pinpoint what you seek, no matter the format or file type.
- + **Best-in-class Support:** Take advantage of our dedicated team of service professionals with deep industry, process and workflow expertise across a wide variety of deal types. They are available around the clock to provide immediate support focused on your needs.
- + **Fast Setup:** DatasiteOne is built for rapid implementation often in a matter of minutes.
- + **Ironclad Security:** Your company's information is too valuable to host on less-secure file sharing services that are vulnerable to malicious intruders. Merrill adheres to best-in-class global security standards across the data security chain.

SUCCESSFULLY NAVIGATING
REGULATED INDUSTRY

Merrill DatasiteOne lets you focus on the deal, not the data room. With secure sharing, collaboration and putting the right information into the right hands, you'll understand your users better than ever and manage the deal with continuity and accurate regulated disclosure. Whether it's due diligence, content management, document formatting and printing, or conferencing facilities you need, Merrill Corporation can help.
